Policy Think Tank and Seminar Aims:

Policy Think Tank

The **AHHA** is the only national organisation representing the public healthcare sector across the continuum of care, including oral health. The AHHA's key role is to develop and advocate for national policies which advance the best interests of the public healthcare sector and those seeking care within it. The **AHHA** has been working with our oral and dental policy group for over two years to develop practical solutions for use at state and national levels.

This **Policy Think Tank** will include presentations from key public sector figures in dental care, summarising the AHHA recommendations and future implementation of major oral health reform. Separate working group sessions will provide an opportunity to develop more detailed implementation plans for Commonwealth and state/territory proposals.

Seminar

The **Seminar** will highlight strategies for:

- Improving access to and managing demand for public oral and dental care
- Integrating oral and dental care into general healthcare and well being
- Improving preventive oral and dental care programs
- Showcase innovations programs and projects with demonstrated outcomes that have:
 - Impacted waiting times for oral and dental care
 - Improved quality, safety and efficiency of service delivery with a particular focus on service integration and coordination of care
 - Focused on preventive programs
 - Addressed workforce challenges including recruitment, retention, education and training

Committee Members:
